

HANDS-ON 9 [Advanced] State Management — NgRx Store, Actions, Reducers, Effects & Selectors

Redux api dev info

Redux DevTools interface showing the initial state of the application. The left pane displays a list of actions, including `@ngrx/store/init`, `@ngrx/effects/init`, and several `[Course] Load Courses` and `[Course] Load Courses Success` actions. The right pane shows the state diff, which is empty, indicating that the states are equal.

Redux DevTools interface showing the state after the first successful course load. The right pane displays the state diff, which includes a new course object with `id: 1`, `name: 'Angular MasterClass'`, `code: 'CS101'`, `credits: 4`, and `gradeStatus: 'passed'`.

Redux DevTools interface showing the state after the second successful course load. The right pane displays the state diff, which includes a new course object with `id: 2`, `name: 'Enterprise Java'`, `code: 'CS102'`, `credits: 3`, and `gradeStatus: 'failed'`.

Redux DevTools interface showing a sequence of actions and the resulting state diff.

Actions:

- [Course] Load Courses (+30:00.60)
- [Course] Load Courses (+30:00.60)
- [Course] Load Courses Success (+30:00.46)
- [Course] Load Courses (+30:00.22)
- [Course] Load Courses Success (+30:00.62)
- [Course] Load Courses (+34:02.73)
- [Course] Load Courses (+30:00.60)
- [Course] Load Courses Success (+30:00.63)
- [Course] Add Course (+30:04.29)
- [Course] Add Course Success (+30:00.62)

Diff:

```
{
  course: {
    courses: [
      5: {
        "id": "ad9k809htrM",
        "name": "Advanced Topic 410",
        "code": "CS964",
        "credits": 3,
        "gradeStatus": "pending"
      }
    ]
  }
}
```

Inspector Log monitor Chart RTK Query

Redux DevTools interface showing a sequence of actions and the resulting state diff.

Actions:

- @ngrx/store/init (4:33:56.26)
- [Course] Load Courses (+00:00.63)
- [Course API] Load Courses Success (+00:01.21)
- [Enrollment] Set Enrolled Courses (+00:00.32)
- [Enrollment] Enroll In Course (+00:00.45)
- [Course] Add Course (+00:00.58)

State:

```
enrollment (pin)
  enrolledCourseIds (pin)
    + 2
    + 3
  loading (pin): false
  error (pin): null
```
